Morning Star Farm

Riding Academy

The Farm

Morning Star Farm is the home of the Heim Family and equitation facility for families in Fredon Twp, Sussex County and neighboring counties. We specialize in the training of children, adults and riders with special needs. We offer a complete riding program including individual and group lessons. We also are a Therapeutic Riding Center with Certified Therapeutic Riding Instructors and a N.J. Licensed Summer Camp..

Our many years of experience and the quality of our horses have resulted in a unique learning program that provides each student with an in depth learning experience. Beyond proper riding technique, rider safety is the highest priority & considered in all that we do.

Our staff is highly experienced, caring, and an important part of our success!

Morning Star Farm is dedicated to the finest of training, in the kindest of ways. We desire to create a friendly farmstead atmosphere while providing student development at the highest levels.

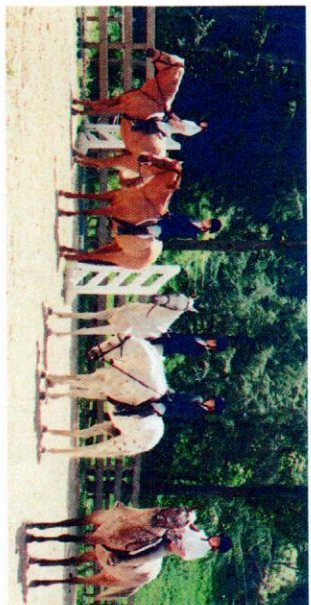

The Friendliest Staff and The Most Beautiful Horses

Your Child's Day at The Farm

Each day at Morning Star Farm is all about your child and our horses. Your child will receive an hour long Riding Lesson, followed by training in horse handling, equine first aid, feeding, leading, lunging, trailering, showing, breeds, colors, diseases, emergency training and overall horse farm skills.

The riding lessons will be tailored around your child's experience. Beginners will learn all the basic skills of mounting and dismounting, steering, walking and trotting. More experienced riders will walk, trot, canter and jump.

In just a very short time your child will be riding independently. You will be amazed at how much they will learn and how quickly they will know the horses by name, breed and color.

Horse Show

We end each week of the Summer Riding Program with a Horse Show. The Family members are invited to see the progress your child has made during their week at the farm.

Our Staff

Shelly and I have been involved with horses in a professional environment since our childhood. Working together as a team we have made Morning Star Farm one of the top Riding Schools in Sussex County and our Summer Camp Program is outstanding.

Judy is both owner, Head Riding Instructor and Lead Certified Therapeutic Riding Instructor. Shelly is our Beginner Instructor and Certified Therapeutic Riding Instructor.

Our Staff pour their hearts out for the welfare of both the children and the horses. Each of us own our own horses and are very talented riders and consider ourselves to be wonderful role models to our students.

Our love for both horses and children is immediately apparent in every activity in which your child will participate.

Please contact us for information Re: "Therapeutic Riding Program". This Program is fun, safe and healthy, with a focus on the abilities as well as the special needs of the student.
